

Why Choose Omega?

The Company

As a proven and reliable business partner for hundreds of law firms across the country, we understand the legal profession nuances, especially in areas of billing, financial management and business intelligence. Omega meets these unique business needs through individually tailored products and services.

- Omega's proven track record, dedication to customer service, continuous product improvement, and sincere interest in the long-term success of our clients are reasons why firms stay with Omega.
- Our management team's collective experience provides a solid, knowledgeable foundation for long-term success.
- Our employees understand the pressures and demands felt by firm employees because many of us have previously worked in law firms.
- We know what it takes to help your employees be more efficient, productive and profitable.

"McNamara was looking for a sound investment in a software solution that would provide the firm flexibility, functionality and reliability, meeting our front and back office needs for many years to come. We found in Omega a partner that was committed to ensuring that the project would go live, on time and within budget."

The Training & Support

Omega is recognized across the industry for its responsive client services team and progressive training methods. In 2002, Omega was the first in the industry to bring the power of the Internet, a live instructor, and proven classroom techniques together to deliver professional, convenient and comprehensive instruction to all users—right to their desktop. Today, Omega offers both online and on-site training.

“We were impressed with Omega’s organized implementation. How they walked the firm through all of the materials and the training right before we went live was excellent. The transition went smoothly and switching to Omega was the right move to make. The firm is so excited about being an Omega client that we are starting a San Diego users group.”
