Webinar Shows Law Firms How to Automate Client Billing Rules to Stop Costly Errors & Get Paid More Quickly

SCOTTSDALE – March 5, 2010 – Omega is hosting a free Webinar on March 23, 2010 at 1:00 p.m. Eastern time. Law firms will learn how eCop[®] automates compliance with client billing rules and puts an end to costly errors and rejected bills while saving time and accelerating cash flow.

Firms no longer have to manually review every pre-bill against each client's set of detailed billing rules. With eCop, rules violations are caught on the spot and corrected at the time of entry.

Omega's product manager, Mary Steele, joins a team of Omega Legal experts and power users to demonstrate how eCop is transforming the billing process and saving firms countless hours each month previously spent on reviewing, correcting and appealing rejected bills.

In addition to the Webinar, Omega is providing the white paper: **How eCop[™] Helps Law Firms Comply with Client Billing Rules**. In this white paper, you will learn how:

- To minimize rejected bills and get paid faster.
- The eCop Rules Engine maintains specific billing requirements.
- Violations are automatically flagged by eCop for correction.
- The eCop dashboard in Visual Xpress[®] helps firms monitor non-compliance by rule, client and working attorney.
- Omega clients are using eCop to streamline and improve their billing process.
