**Greenberg & Bass, LLC Rolls Out Omega Legal^{VX}
To Improve Employee Productivity & Satisfaction**

PHOENIX—December 19, 2009—Greenberg & Bass, LLC, is converting to Omega Legal^{VX} and firm employees are looking forward to the streamlined processes and ease-of-use that the new financial and practice management system offers. Omega Legal Systems, Inc. is a nationwide provider of time, billing, accounting and business intelligence software specifically designed for mid-to-large size law firms.

The San Fernando Valley firm was looking for a software suite that offered a user-friendly platform, increased speed, as well as a more efficient way to access and retrieve critical data. According to Claudia A. Galati, firm administrator at Greenberg & Bass, the firm was familiar with Omega before making the purchase. “We made the investment in Omega Legal^{VX} because it will greatly improve how we get things done at the firm. Not only will the software improve client management and overall efficiency across the firm, it will ultimately increase profitability and employee productivity. Our employees will be spending less time extracting data and more time on revenue generating tasks. What used to take hours will now only take a few clicks.”

“Greenberg & Bass was voted as one of the best places to work in their community, and this reputation is reinforced by their decision to better support their employees and clients by deploying Omega Legal’s cutting-edge technology to make their jobs easier,” said Don Gall, President and Founder of Omega Legal Systems, Inc. “We are pleased to welcome the firm to the Omega family and will strive to support the firm’s strategy of employee satisfaction, firm profitability and long-term growth.”
